Claim

Bill Review: Pharmacy EDI - LIGA pays CPS

Release: 5.11 **Task Type:** Project **External Ref:** 20111104 **Case No:** 8172

Issue: A new bulk payment feature to provide ability bulk the individual invoices into a bulk payment to CPS. This is actually the biggest deviation from what we have already done, but it is similar in function to the UEP bulk check process.

Resolution:

USER: A new bulk payment feature to provide ability bulk the individual invoices into a bulk payment. This is foundation for LIGA special project; full functionality not yet available.

Check - Print:

Release: 5.11 **Task Type:** Enhance **External Ref:** 794 **Case No:** 6800

Issue: Please enhance to support having different check datawindows per check account. Also, please enhance to support different signature groups for each check account.

Resolution:

USER: Account drop down has been added to the Verify screen, it will filter the results in the grid based on their check account. Selected items can then be verified and will appear in the Print tab

Check - Search/Void Browser:

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 8560

Issue: Please add Bill Number as a find field.

Resolution:

USER: The Bill No Field has been added as a find field in the Search/Void tab

IIGF,LIGA,NJPLIGA ONLY

Check - Search/Void: Alert Detail

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 8662

Issue: Please add an Alert detail button. Button will provide a Alert by Check view, similar to the Alert detail in Claim. To show alerts that can be associated to the particular check and the related check items. By default is should show unprocessed alerts but with an option to include processed alerts.

Resolution:

USER: New alert detail added to claim screen

Check - Verification:

Release: 5.11 **Task Type:** Bug **External Ref:** 832 **Case No:** 8520

Issue: Trying to do a screen print of the Verify screen using the Print option in the File menu generates a system error when run from 5.09 and generates a database error when run from 5.10

Resolution:

USER: The user needs to click on the grid before the File/Print feature will give them printout. If they directly to File/Print upon entering the screen they will not get a print out. Recommend using the Print button on the Top center of the screen.

Check:

Release: 5.11 **Task Type:** Task **External Ref:** 819 **Case No:** 8515

Issue: At FIGA the NCIC-Magnolia check account is still in the drop down when selecting the check account for printing checks. They would like to disable it so that it does not cause confusion. The maintenance screen does not allow disabling the account. Can you write a script that will allow this to be disabled

Resolution:

USER: The NCIC-Magnolia Check account has been removed from the drop down

FIGA ONLY

Page 2 of 5

Claim Maintenance - Claim: Alert Detail

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 8550

Issue: Please add an Alert detail button. Button will provide a Alert by Claim view. To show alerts that can be associated to the particular claim. By default is should show unprocessed alerts but with an option to include processed alerts.

Resolution:

USER: Alert Detail button has been added to the Claim, initially displays alerts that have not been processed. There is a check-box that will include processed alerts for the claim. A detail button provides details for the alerts on an individual basis. The grid has column sort and check-box filtering

Claim Maintenance - Claim: Diary Detail

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 8549

Issue: Please add a Diary detail button between Flag and Synopsis. Button will provide a Diary by Claim view similar to what is in the home tab.

Resolution:

USER: Diary Button has been added to claim Maintenance. It is available on the claim tab between the Flag and Alert buttons. Displays a grid showing diaries for the claim and shows the information similar to the grid in Diary Metrics. Diaries can be edited or added using the Edit or Add buttons respectively

Claim Maintenance - Claimant: PIP Detail - Report

Release: 5.11 **Task Type:** Enhance **External Ref:** 2011083005 **Case No:** 8626

Issue: Report from the print button. Not including all payments

Resolution:

USER: Now shows all payments

Release: 5.11 **Task Type:** Enhance **External Ref:** 2011083005 **Case No:** 8632

Issue: Report from the print button. Should to Preview mode rather than just sending it to the printer.

Resolution:

USER: The print button first displays a Preview screen

Claim Maintenance - Home Alert:

Release: 5.11 **Task Type:** Enhance **External Ref:** 796 **Case No:** 8616

Issue: V5.10 implemented ability to add comments when approving OFAC & vendors. We can't see where those comments are visible to a user once entered.

Resolution:

USER: Comments should be viewable from the Alert queue by selecting Processed alerts and then using the approve button to bring up the detail. Alert details have been added to Claim, Vendor and Check.

Claim Maintenance - Home Metrics:

Release: 5.11 **Task Type:** Enhance **External Ref:** 848 **Case No:** 8413

Issue: Establish new exception metric – claim in suit, with no Defense Atty listed/present

Resolution:

USER: A Claims in Suit with no Defense Atty exception metric has been added to Metrics. If a Claim has the suit option set to Yes and there is no defense attorney it will be listed in this Metric

Claim Maintenance - Notes: In House Medical Management

Release: 5.11 **Task Type:** Project **External Ref:** 2011083005 **Case No:** 8295

Issue: Notes will be kept in LCMS for both the examiners and the Medical Management Division. NJIGA would like this to be readily distinguishable between the two divisions; possibly with a unique tab. Lightspeed needs to enhance LCMS to support Notes from the Medical Management Division segregate from the Examiner Notes. Currently this is not seen as being pivotal to the MIC integration and can be tackled after the integration has been achieved.

Resolution:

USER: User can add Medical Management activity types that can be used on the Notes tab

NJPLIGA ONLY

Claim Maintenance - Status: In House Medical Management

Release: 5.11 **Task Type:** Project **External Ref:** 2011083005 **Case No:** 8295

Issue: Status entries will be kept in LCMS for both the examiners and the Medical Management Division. NJIGA would like this to be readily distinguishable between the two divisions; possibly with a unique tab. Lightspeed needs to enhance LCMS to support Status entries from the Medical Management Division segregate from the Examiner Status entries. Currently this is not seen as being pivotal to the MIC integration and can be tackled after the integration has been achieved.

Resolution:

USER: Status memorizes the Oper settings that were last used

NJPLIGA ONLY

Claim Maintenance - Status: Print

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 7697

Issue: Please add a Sel box next to Status tab to print multiple status entries at one time or individual entry. (similar to Note Tab printing capabilities)

Resolution:

USER: Sel column has been added to the left side of the grid. This allows the user to select which of the status items will be printed when clicking on the print button. Leaving them all unchecked will print them all

Claim Maintenance - Transaction:

Release: 5.11 **Task Type:** Task **External Ref:** **Case No:** 8629

Issue: When clicking the headers in the grid the horizontal scroll bar goes back to the far left of the screen. If the user has scrolled over to look at a particular column and then wants to sort by that column, the scroll bar should not move back to its original position

Resolution:

USER: Clicking the headings or selecting the filter check-boxes on the grid leave the horizontal scroll bar alone

Claim System: Last Used Memory

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 8348

Issue: Last Used Memory

Resolution:

USER: Improved support to consistently take the user back the the tab and detail last accessed when moving from one claim to another.

Company Maintenance:

Release: 5.11 **Task Type:** Enhance **External Ref:** 844 **Case No:** 8409

Issue: Please change label "Bar Date" to "Fund Bar" and add a new "Receiver Bar" date (receiver filing deadline) field.

Resolution:

USER: Bar Date has been changed to Fund Bar and a new Receiver Bar date field has been added

Page 4 of 5

Export - MSP Claim Export:

Release: 5.10a **Task Type:** Bug **External Ref:** **Case No:** 8566
Issue: Export is including items that are not reportable. Add records are being created for claimants with no ORM and no TPOC.
Resolution:
USER: Claimants that do not have ORM of TPOC are no longer being included in the MSP Claim Export

Letters: Receiver Bar Date

Release: 5.11 **Task Type:** Enhance **External Ref:** **Case No:** 8490
Issue: Please add the new "Receiver Bar" date (task 8409) to the Claim, UEP and Company Letter sources.
Resolution:
USER: The Receiver Bar date item has been added to the source of the Claim, UEP and Company letter sources. Is the list it can be identified as the Bar_Date item

Medicare Second Payee:

Release: 5.11 **Task Type:** Task **External Ref:** **Case No:** 8595
Issue: Create a MSP Test warning if the first character of the claimant's first or last name is not an alpha character. (Error code CB08 allows for spaces within the name; we need a additional warning for spaces in the first character)
Resolution:
USER: Warning added

Notice Bulk Update:

Release: 5.11 **Task Type:** Enhance **External Ref:** 658 **Case No:** 7920
Issue: Provide diary spread for Managers as well as examiners.
Resolution:
USER: Diary Spread capability has been added for the Managers, same as it has been for the examiners

Reports - Flex Reports: Check Escheat

Release: 5.11 **Task Type:** Bug **External Ref:** 822 **Case No:** 8526
Issue: On the XL export for the HRS-Pro, it appears on claim checks, the 3rd owner name didn't get extracted out onto the XL. We have an examples of check# 509807 & check# 518468 & 518466 (screen shots below)
Resolution:
USER: Flex report will now provide details for possible issues.

Reports - Flex Reports: Suffix Summary Flex Report

Release: 5.11 **Task Type:** Enhance **External Ref:** 2011083008 **Case No:** 7709
Issue: Please add Claimant Date of Birth and Date of Death to Report Specific criteria for this flex report.
Resolution:
USER: Claimant Date of Birth and Date of Death options have been added to the Report Specific Criteria of the Suffix Summary Flex Report

Security:

Release: 5.11 **Task Type:** Task **External Ref:** **Case No:** 4478
Issue: When a user is set to disabled, if they were already in an escalation group, they are still visible in that group. Could the system suppress disabled users from being displayed in the escalation groups?
Resolution:
USER: Disabled users are no longer displayed in the escalation groups, disabled users cannot be added to escalation groups either
